

**JAVASCRIPT AND REACT DEVELOPERS (2-3 YEARS EXPERIENCE) (RS 450,000)****COMPANY SUMMARY**

Starweaver is a technology and media expert platform that delivers a completely new, immersive, compelling, and connected education experience for technology and business professionals. Our activity-based “alive education” delivers dynamically personalized job role and skill-based training related to each student’s unique attributes in a social and connected environment in five (5) principal domains: data science, cloud computing, full stack development, agility & stability frameworks, and business skills.

Our platform delivers a completely new, immersive, compelling, and social education experience where skill development and course completion rates are 5-6 times higher than competitors, at 75-90%. Our essential differentiator is an expert system with activity, competency, and skill-based training components that arrives in virtual social, group or team-based environments, aligned to job role and job functions validated by employers

More about us is located at <http://www.starweaver.com/live> and on our learning management system at learning management system at <http://learning.starweaver.com>. You can also view some of our online courses at a third party sites (e.g., <https://www.udemy.com/u/paulsiegel2>).

**JOB DETAILS**

We are hiring experienced JavaScript developers who is proficient with React.js. The primary focus of the selected candidate would be on developing user interface components implementing and executing them following well-known React.js workflows (such as Flux or Redux). Also ensuring that these components and the overall application are robust and easy to manage. A commitment to collaborative problem solving, sophisticated design, and quality products are important.

As a React.js Developer, you will be involved from conception to completion with projects that are technologically sound and aesthetically impressive.

The principal job of the JAVASCRIPT AND REACT DEVELOPERS will be:

- Developing the latest user-facing features using React.js
- Designing a modern, highly responsive web-based user interface
- Building reusable components and front-end libraries for future use
- Translating designs and wireframes into high-quality code
- Implementing analytics and running tests to understand user interactions
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers
- Coordinating with the back-end, data, UI/UX, and various other teams
- Discussing, implementing, and following best practices to ensure code remains performant and maintainable over time.

To be hired and succeed in this job you must have the following TECHNICAL SKILLS:

- Strong proficiency in JavaScript
- Thorough understanding of React.js and its core principles
- Prior experience with popular React.js state management tools (such as Redux or MobX)
- Familiarity with more current specifications of EcmaScript
- Knowledge of Server-Side Rendering is a plus
- Familiarity with RESTful APIs
- Familiarity with HTML / CSS
- GIT experience
- Knowledge of modern authorization mechanisms, such as JSON Web Token
- Familiarity with modern front-end build pipelines and tools
- Experience with common front-end development tools such as Babel, Webpack, NPM, etc.
- Ability to understand business requirements and translate them into technical requirements
- A knack for benchmarking and optimization
- 

## REQUIREMENTS

- ✓ 2-3 years of direct, hands-on JavaScript experience.
- ✓ 1+ year familiarity with React, or awareness of its features and functions.
- ✓ Ability to work 5:30 PM IST to 2:30 AM initially, and after 1-3 months from 3:00 PM IST to 12:00 AM.
- ✓ Ability to work remotely, effectively and without minute-to-minute supervision.
- ✓ Trustworthiness so we know you are doing and documenting your work (see line immediately above).
- ✓ Ability to write, speak and communicate clearly and effectively.

## ENTRY ASSESSMENT

- ✓ You will be required to complete a coding challenge (~1 hours) to demonstrate your skills in React.
- ✓ You must be sharable with us on GitHub.
- ✓ We highly recommend that your GitHub have your portfolio of work.

## COMPENSATION

Competitive full-time base compensation, commissions and bonuses are available.
